## Sensitivity and Toxicity Testing (S.A.T.) - Client Informed Consent

1. Our Testing Device is an investigational device that measure the electrical resistance of the body at specific skin locations identified with acupuncture meridians and acupuncture points. The technician informs but does not diagnose, treat, or cure disease. All information gathered is used to assess your energetic imbalances. If you have a serious illness, or medical condition, we strongly encourage you to discuss them with a Naturopathic Doctor or your primary health care physician.
2. Any recommendations for supplementation or dietary modifications are followed voluntarily by the client. No claims outside of what is specified on product labels are made. If you are taking medications, please consult with a Naturopathic Doctor or your Primary health care physician before taking any vitamins or herbal supplements. The purchase of recommended products is completely optional. Please read the labels carefully before opening the product to assure there are no interactions with medical conditions or medications. We have a restrictive return policy so consider your purchases carefully. We cannot exchange products, for any reason, once they have been opened or kept for longer than seven days. Full terms are posted on our website at: [terms.mnm.ca](http://terms.mnm.ca)
3. Testing is not claimable under benefit plans unless accompanied by a separate visit with our Naturopathic Doctor. For an additional fee we have Dr. Julie Mardian ND on staff to help you with your medical concerns. Frank Mardian and the MNM Staff are not doctors; they give nutritional advice only. For medical conditions it is strongly advised to follow up with a health care professional. Choosing not to do so absolves MNM (Mardian Natural Medicine) of any liability thereof.

**I have read, understood and acknowledge the above statements**
